

PHOTOMA

3 Timeless yet novel. Retro yet modern. Photoma is the absolute top of the line photo booth, designed to be beautifully immersive with no expenses spared. Sophisticated lighting and specialized camera hardware have been engineered to produce studio-grade photos. Customizable lighting with an oversized external monitor make Photoma the superior vehicle for any brand.

2 smileOS, the groundbreaking new software from Faceplace focuses first on producing the perfect photo, but then incorporates filters, immersive lighting, automated delivery of content, simple setup, reporting, and OOB€ More immersive and engineered to Apple Industries standards, Photoma shatters the frontier of photo booth innovation, entertainment.
